AXALTA COATING SYSTEMS

The SuprAnodic Alesta® SD Collection

Powered by **BioCore™**

OUR MOST ELEGANT COLLECTION, DESIGNED TO DEFINE SKYLINES

ARCHITECTURAL PERFORMANCE

- SuperDurable powder coating for long-term architectural applications.
- Designed for high-exposure window frames with excellent UV, color and gloss retention.
- Proven durability on windows, curtain walls and aluminium façade systems.
- Meet Qualicoat Class 2, GSB Florida 3 (Master) and AAMA 2604 requirements.
- Supported by Axalta architectural warranties.

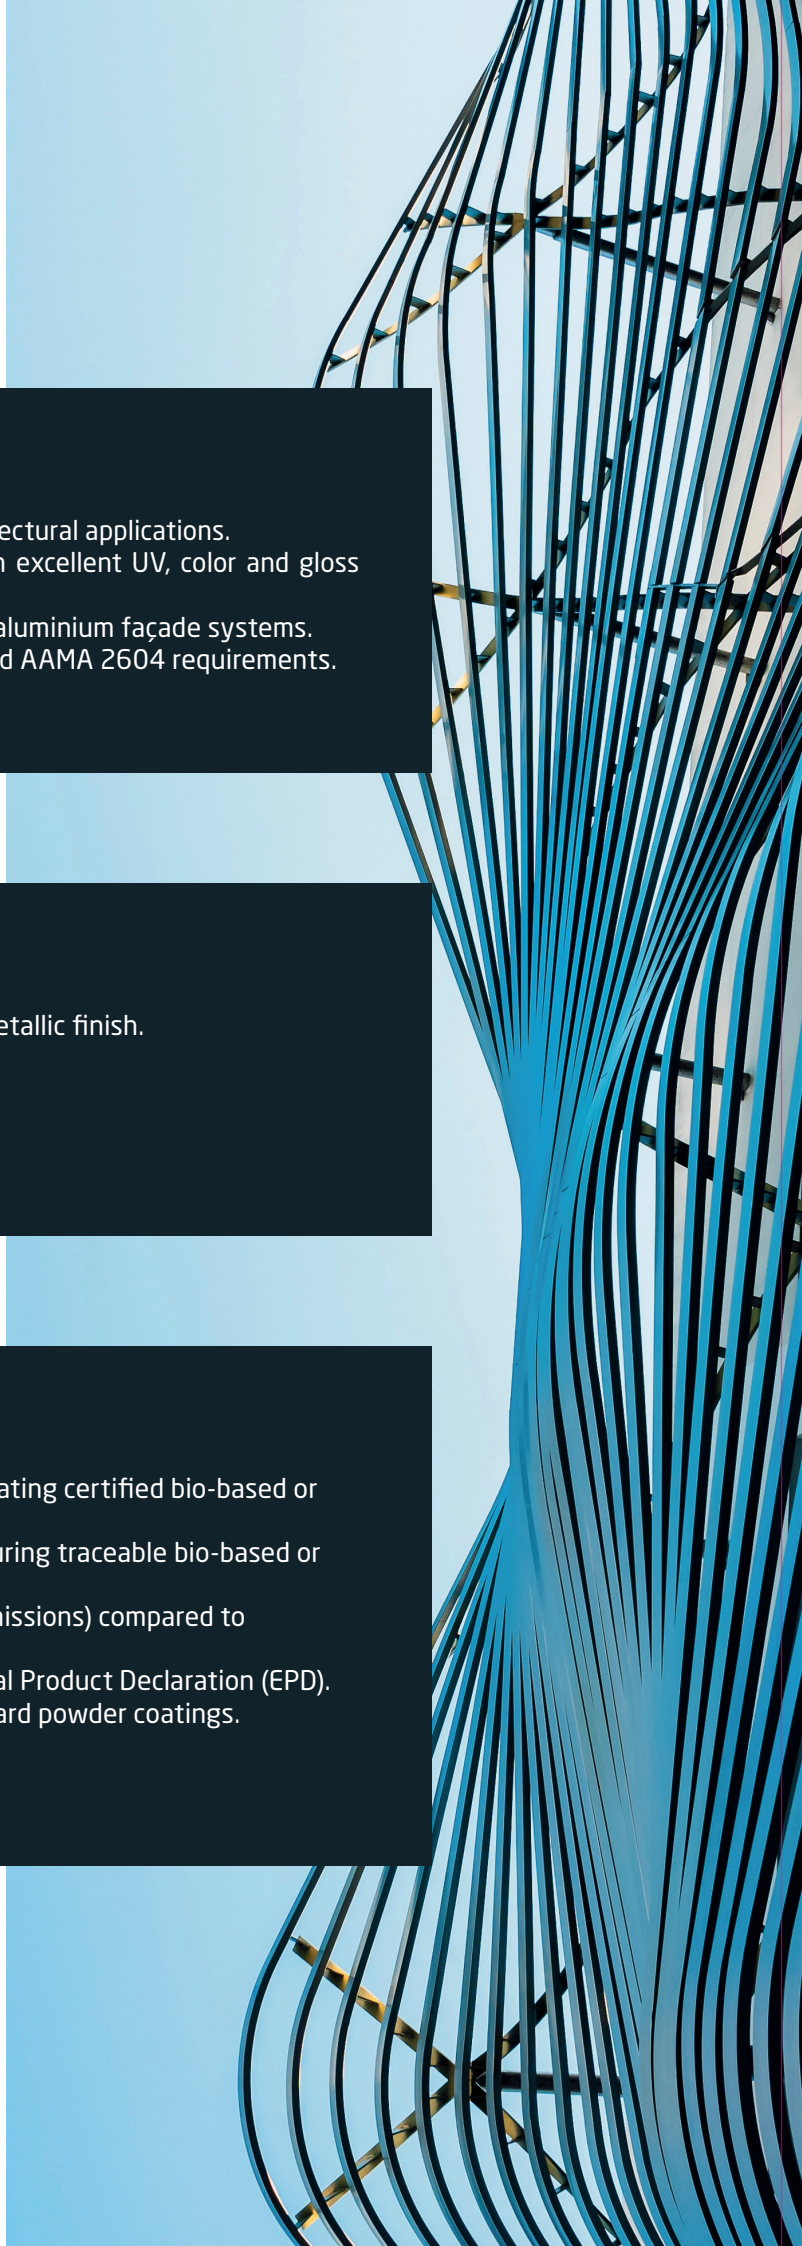

EXQUISITE ANODIC FINISHES

- Bonded metallic technology for homogeneous metallic finish.
- Uniform appearance across façade elements.
- High batch-to-batch color consistency.
- Reliable application on architectural aluminium.
- Consistent quality across projects and runs.

BIOCORE SUSTAINABILITY

- Powered by Alesta® BioCore™ technology integrating certified bio-based or circular (recycled) raw materials.
- ISCC PLUS* certified mass balance approach ensuring traceable bio-based or circular raw materials.
- Reduced embodied carbon (Scope 3 upstream emissions) compared to conventional powder coatings.
- Supported by a third-party verified Environmental Product Declaration (EPD).
- Same color, performance, and durability to standard powder coatings.

*(International Sustainability and Carbon Certification PLUS)

The SuprAnodic Alesta® SD Collection

SuperDurable powder coatings

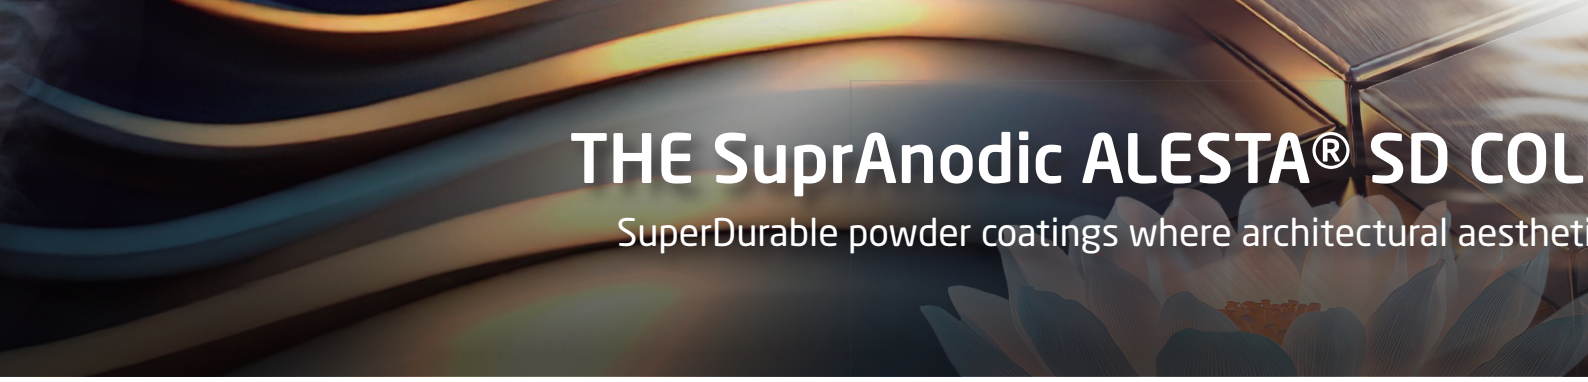

SuprAnodic Alesta® SD collection is one of the most trendy anodic look powder coatings developed in our Alesta SuperDurable quality. The colors selected are the perfect mix between future color trends and today's demands in the architectural and design segments. The products are all formulated according to the highest Axalta bonding standards.
